# «Safety Day»

*On June 2, 2019 our company held a monthly "Safety Day" which was visited by FGP Management namely, Mark Urfer, David Crowther, Michael Lewis. Once again, employees who have been working in strict compliance with Safety and Incidents and Injuries Free work practice during the entire month were noted and awarded.*

*Basing on the personal performance, the following employees were awarded: Zhappasov Adil, Vorobyov Oleg, Tuyakov Aibek, Sultanov Ruslan, Daribayev Aslanbek. FGP Project Management expressed his appreciation to everyone and handed them Bluetooth ear pods, backpack, bags and thermoses.*

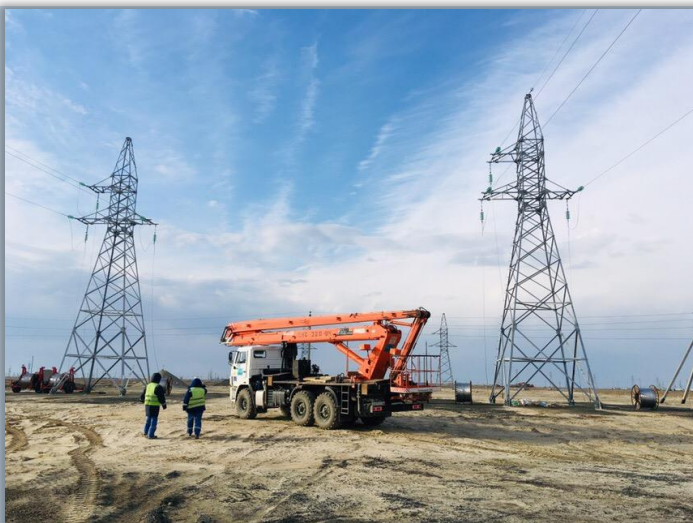

## **CONSTRUCTION NEWS**

*One of the sectors "Kazcomservice" LLP is engaged in is electrical installation, such as construction of substations and overhead power lines of 35kV, 110kV.*

*We have fully constructed the L154 and L155 Overhead Power Lines consisting of 30 metal towers and 3 reinforced concrete poles, and since mid-November 2018 are in operation. Currently some old lines dismantling activities are performed there.*

*The work on two more 110kV OHLs L177 and L178 is in progress now, and 27 metal towers 30 reinforced concrete poles have already been installed. The construction of OHL 35kV L57C and L58C lines takes not less of the hard work as well, and we have already installed 69 metal towers and 52 reinforced concrete poles. On the site of OHL 110 kV L173T we have successfully installed 3 metal towers and 2 gantries. And we have installed 4 metal towers on 110kV OHL L171, L176, L156, L157, construction works in progress at L187, L188.*

*Installation of the poles is a highly complex process demanding the rigorous compliance with strict requirements. And Kazcomservice employees do cope with all the tasks set through high extent of commitment to safety.*

# Ecology

***TENGIZ - we all know that there is a tremendous construction, but do you think there is a choice for the birds where to go where to create the nests? Do they understand where they are? Of course not!!! Therefore, we do everything in order not to offend wild world, those of whom we should take care.. And on our site L177 / 178 # 51 birds came and developed its nest. The ELC specialists of our Company immediately reacted to this fact and took measures to secure the arriving guests.. Until the chickens hatch out and get stronger so that they can fly away from their nests.***

22.05.2019. Pictured the founder of Company Kultekenov K.K presented to Bizhanov Zh letter of appreciation.

22.05.2019. Pictured Teapot talk of our employees with FGP representatives

22.05.2019 Pictured the founder of Company Kultekenov K.K presented to Akbotaev B letter of appreciation.

22.05.2019 Pictured the founder of Company Kultekenov K.K representatives of CHEVRON and KCS employees.

22.05.2019 At 110 kV OHL site L- 171, IIF walk round held with participation of CHEVRON representatives, Founder of Company Kultekenov K.K. Such IIF walk round was planned in goals and objectives for 2019. At this IIF walk round, our employees had the opportunity to talk with the Top Management in an unforced situation, the guys asked questions and received detailed answers to the questions. During the meeting, several employees were awarded with letters of appreciation and memorable gifts, after walk round the guests and working staff drove to the camp for further teapot. I'd like to mention the fact that such meetings with Managers close up Employee and Managers.

## ***IIF CHAMPIONS***

*Nakypbekov  
Bauyrzhan*

*Rahmanov  
Altynbek*

*Ayanov  
Talgat*

*Yuriev  
Gregory*

*Trayspaev  
Serik*

### *Meeting with Kazcomservice Champions*

*Nakypbekov Bauyrzhan Kenzhebolatovich 3.07.1994 year of birth. Born and raised in Aktobe region, Aktyubinsk. He is married to a beautiful woman named Nursaule. They have two wonderful daughters, the eldest one Yerkezhan is 2 years old and the younger Ayana she will be 1 year old on September 4th. Bauyrzhan's parents also work in Kazcomservice, his father Kenzhebolat and mother Tolkyn. Every time seeing his son on site Baurzhan's father is proud to share with colleagues that his son IIF Champion. He knows that his son will always help colleagues and responsible for work.*

*So this time when CHEVRON representatives and Company Founder Kultekenov Kaiyrzhan Klementevich arrived at the site, Bauyrzhan met the guests with dignity and honorably introduced himself. Despite the fact that at that time he worked at night shift, he came and conducted IIF walk round with us. Many times he attended meetings on the Commitment to Incident Injury Free of Company Managers and Business Partners at which made proposals for improving the workflow. You probably think why all this information? We want each of you to trust our IIF Champions because they are just Volunteers and do not receive anything for your Committal except your acknowledgment. Champion is the person who deliver proposes from working staff, he as a bridge between employees and managers. Remember that we are here to make money and arrive to our family and friends safe and alive. Do you like this section? Have you get something new about Champion Bauyrzhan?*

*Then in the next issue we will tell you about the next Champion.*

## FGP C&P Safety Day

*FGP C & P Safety Day will be held at TCOV on October 6, 2019., FGP C & P Safety Manager Michael Lewis has shared this good news at Safety Managers meeting, he told us about how the celebration will take place.*

*There will be gifts, tasty treats and a lot of useful information. Each Contractor Company will place tents in area allocated for them in which there will be models of what Company does.*

*Everyone will come from Working Staff to Company Management. Another important moment is that this event will be held only once this year. Exact details of this event will be reported to us closer to the event date. We look forward to this day !!!*

*22.05.2019. At special FGP C&P IIF Coordinators meeting, Marzhan Kazcomservice IIF Coordinator, received a letter of appreciation from FGP C & P Safety department Supervisor.*
